PREET RANA

Student | Aspiring Web Developer

Portfolio: ranapreet527-spec.github.io/PreetRana-PortfolioWebsite
GitHub: github.com/ranapreet527-spec

Email: ranapreet527@gmail.com

PROFILE

Web development student building practical projects with HTML, CSS, JavaScript, Python, and MySQL. Interested in responsive interfaces, database-driven web applications, and improving development skills through hands-on work.

EDUCATION

[B.Tech / CSE] — [AMTICS College, Uka Tarsadia University (UTU)]
Current semester: [3rd SEM]
Relevant coursework: Web Development, Database Management Systems, Java Programming, Software Engineering, and Programming Fundamentals.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, responsive web design
Backend & Database: Python, Flask, PHP, MySQL
Programming: Java, C (academic coursework)
Tools: Git, GitHub, Visual Studio Code

PROJECTS

Gaming Zone Management System

Student web application project for browsing games and gaming stations and supporting station bookings. Planned stack: HTML, CSS, JavaScript, Python/Flask, and MySQL. Work includes page templates, database queries, and booking-flow development.

SEM Bites — Campus Food Ordering

Frontend project concept for a campus food-ordering website with menu browsing, a cart indicator, and a cart sidebar. Built with HTML, CSS, and JavaScript.

Personal Portfolio Website

Responsive personal portfolio built with HTML, CSS, and JavaScript and published using GitHub Pages.

ADDITIONAL ACADEMIC EXPERIENCE

Completed academic practicals and coursework involving HTML, CSS, JavaScript, PHP form handling and CRUD operations, Python fundamentals, Java file I/O, and DBMS concepts including SQL queries, joins, and relational database design. Practiced building and debugging web pages and connecting applications to MySQL databases.
